FAST FURNITURE

AFTER THE RACE 'GULF 2' If TopGear did art, it would look something like this. After The Race takes genuine steel bonnets (or fibreglass reproductions for €2,000 less) and doors from old 911s, then paints and ages them with "oil, tyre rubber and other ingredients we keep secret" so they look like they've come straight off a racecar. They're handmade, so each one's unique, and there's a load of liveries on offer. Gulf, Martini, Rothmans, the lot – or you can commission your own. Delivery takes four weeks. Worth the wait, we reckon. **Price from** **aftertherace.be**

FALLEN FURNITURE EXHAUST LAMP

Why exhaust lamp? Because the head, shade or whatever you want to call it is the exhaust from a BAE 146's jet engine – sanded, polished and heated for effect. Oh, and it stands over 6ft tall. Big house required. **£5,999; fallenfurniture.com**

RIVA 1920/LAMBORGHINI DYNAMIK SOFA

Lambo has diversified into sofas. It's partnered up with Riva 1920 – manufacturer of lovely Italian furniture – for the "Authentic Living" collection, which has stuff like this in it. Wonder how many parts it shares with the Aventador? **£POA; riva1920.it**
